Subject: NSRAC advice on the Common Fisheries Policy reform

Dear Mr Andersson,

Thank you very much for your report regarding the Common Fisheries Policy reform for consideration before the Green Paper is launched.

The Commission is presently finalising the Green Paper and your report is a valuable contribution to this process.

The Green Paper will be adopted in April 2009, and the public debate will be open until December 2009. I hope that the NSRAC will also contribute to this debate. After the public debate, the Commission will carefully examine all the contributions received and publish them on its Fisheries website. The results of the consultation will be summarised and conclusions drawn about how to carry the reform forward. This analysis should be ready by the end of February 2010.

Yours sincerely,

Fokion FOTIADIS
